REFERENCE:

- The total costs efficiency measure is new for 2009. Total costs means operating costs as defined by MPMP plus amortization and interest on long-term debt.
- ¹ The efficiency measure based on operating costs for police services for 2009 no longer includes expenses for prisoner transportation or court security since expenses for these services are being uploaded to the Province over a number of years.
- ² Statistics Canada has expanded the definition of violent crime. Therefore, prior years are not comparable unless restated.
- ³ Statistics Canada has expanded the definition of property crime. Therefore, prior years are not comparable unless restated.

Line numbers for efficiency measures for 2009 and prior years:

Report results for 2009 only, unless results for prior years are restated. In determining whether to restate the efficiency measure based on operating costs for police services, consider whether amounts for unfunded liabilities are material and whether there are changes in what are deemed to be capital expenses.

- The efficiency measure based on operating costs for police services in 91 1204 35 for 2009 may be compared to the measure in 91 1203 13 for 2005 to 2008, provided costs for prisoner transportation and court security are included.

- The total costs efficiency measures are new for 2009. Total costs means operating costs as defined in MPMP plus amortization and interest on long-term debt.
- The calculation of electronic library uses was updated in 2009 to include the number of people using the public library wireless connection. Therefore, the following measures are not comparable with prior years: operating costs for library services per use, library uses per person, electronic library uses as a percentage of total library uses and non-electronic library uses as a percentage of total library uses.

Line numbers for efficiency measures for 2009 and prior years:

If amounts for unfunded liabilities are not material for the service area measured and there are no changes in what are deemed to be capital expenses, then,

- The efficiency measure based on operating costs for library services per person in 91 7405 35 for 2009 is comparable to the efficiency measure in 91 7403 13 for the years 2005 to 2008.
- The efficiency measure based on operating costs for library services per use in 91 7406 35 for 2009 may be compared to the efficiency measure in 91 7404 13 for the years 2005 to 2008, but only if the number of people using the library wireless connection is included in the calculation of library uses in the denominator. Note that this data may not be available.

Line numbers for effectiveness measures for 2009 and prior years:

- The FIR reference for the measure, library uses per person, was 92 7460 07 for 2005 to 2009.
- The FIR reference for the measure, electronic library uses as a percentage of total library uses, was 92 7463 07 in 2009 and 92 7461 07 for 2005 to 2008.
- The FIR reference for the measure, non-electronic library uses as a percentage of total library uses, was 92 7462 07 for 2005 to 2009.
